

# How Much Do I Give?

## Offering Worksheet

### IF YOU GIVE WEEKLY...

1. Find your family's income on the bottom row of one of these two charts. You can determine it by what you make annually, monthly, or weekly.
2. Move up the column until you find the closest number to what you give on a WEEKLY basis. Now, look at the far left and see what % of your income you are giving.
3. If you want to set a goal to give a certain % on a WEEKLY basis, find that % on the left, then move your finger across the row until you find the column that represents your income level. This is how much you would aim to give WEEKLY.
